SECOND STATUS INQUIRY

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

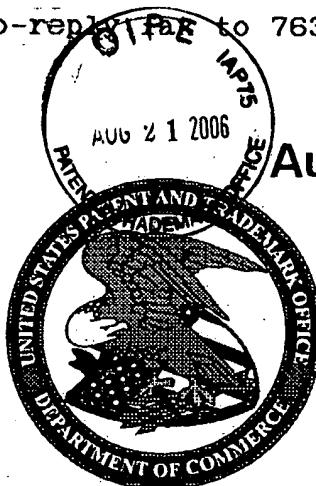

The last communication was a Status Inquiry filed February 10, 2005 with respect to a Petition for Revival, Response and Amendment and Request for Extension of Time Transmittal dated September 27, 2001 filed by Applicant. Copies are enclosed of the foregoing documents, as well as a copy of a response and amendment filed September 5, 2000 to the June 5, 2000 Office Action. Please reinstate this application as requested in the attached documents.

Respectfully submitted,

Date: August 21, 2006

Sir:

Should Applicants' Petition for Revival of Unintentionally Abandoned Patent Application filed on even date herewith respecting the above-referenced patent application be granted, Applicants respectfully propose that this Response and Amendment submitted pursuant to the June 5, 2000 Office Action be entered into the record of the revived patent application as follows:

I. Amendments

Please amend the above-referenced application as follows:

In the Claims:

Please cancel claim 1.

Please amend claims 2-6 as follows:

2. [A system for providing medical electrical stimulation according to claim 1 further comprising:] A system for providing medical electrical stimulation, comprising:

a first medical electrical lead comprising a first lead body and a first electrode portion, the first electrode portion being coupled to the first lead body, the first lead body comprising a first proximal section and a first distal section, the first distal section being thinner than the first proximal section;

a second medical electrical lead [having] comprising a second lead body and a second electrode portion, the second electrode portion being coupled to the second lead body, the second lead body [having] comprising a second proximal section and a second distal section, the second distal section being thinner than the second proximal section;

[a suture sleeve position] first and second suture sleeves positioned, respectively, on [each] the first and second proximal [end] sections[of the lead bodies]; and

a stabilizing block positioned on the distal [end] sections of the first and second lead bodies, the stabilizing block having means for stabilizing [each of] the first and second electrode portions [of the lead] from moving out of position once they have been implanted[while the other leads are being implanted].

3. The [A] system [for providing medical electrical stimulation according to]
of claim 2, wherein the means of stabilizing [comprise] comprises a pliant polymer block having a series of slots, the slots dimensioned to frictionally engage with the [each lead body] first and second lead bodies.
4. The [A] system [for providing medical electrical stimulation according to]
of claim 2, wherein the first electrode portion comprises a root portion, a semi-cylindrical cuff [extending] extends from the root portion in [the] a first radial direction, a long flap [extending] extends from the root portion in a second radial direction, the long flap extending over at least a portion of the semi-cylindrical cuff, and a short flap [extending] extends from the root portion in [a] the first radial direction, the short flap extending over at least a portion of the long flap.
5. The [A] system [for providing medical electrical stimulation according to]
of claim 4, [further comprising] wherein the first radial direction ranges between 90 and 270 degrees.
6. The [A] system [for providing medical electrical stimulation according to]
of claim 5, [further comprising] wherein the second radial direction ranges between 180 and 360 degrees.

II. REMARKS

Support for the amendments made to the claims herein may be found throughout the application as filed.

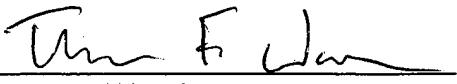

Referring to the Office Action mailed June 5, 2000, and in accordance with the Examiner's requirements and rejections, claim 1 is cancelled herein and claims 2-6 are amended to incorporate all the limitations recited in cancelled claim 1. Moreover, all section 112 deficiencies pointed out by the Examiner respecting claims 2-6 are corrected by way of amendment herein. Accordingly, claims 2-should now be in condition for allowance.

III. Summary

Claims 2-6 drawn to a stimulation system are now pending in the present application, and are believed to be in condition for allowance. Examination of the application is requested. The Examiner is respectfully requested to contact the undersigned by e-mail at thomas.woods@medtronic.com with any questions or comments he may have. Applicants' attorney will promptly contact the Examiner by telephone upon receiving an e-mail.

Respectfully submitted,
JEAN WOLOSZKO et al.

Sir:

This response and Amendment is submitted pursuant to the June 5, 2000 Office Action issued in respect of the above-referenced patent application.

I. Amendments

Please amend the above-referenced application as follows:

In the Claims:

Please cancel claim 1.

Please amend claims 2-6 as follows:

2. [A system for providing medical electrical stimulation according to claim 1 further comprising:] A system for providing medical electrical stimulation, comprising:

a first medical electrical lead comprising a first lead body and a first electrode portion, the first electrode portion being coupled to the first lead body, the first lead body comprising a first proximal section and a first distal section, the first distal section being thinner than the first proximal section;

a second medical electrical lead [having] comprising a second lead body and a second electrode portion, the second electrode portion being coupled to the second lead body, the second lead body [having] comprising a second proximal section and a second distal section, the second distal section being thinner than the second proximal section;

[a suture sleeve position] first and second suture sleeves positioned, respectively, on [each] the first and second proximal [end] sections[of the lead bodies]; and

a stabilizing block positioned on the distal [end] sections of the first and second lead bodies, the stabilizing block having means for stabilizing [each of] the first and second electrode portions [of the lead] from moving out of position once they have been implanted[while the other leads are being implanted].

3. The [A] system [for providing medical electrical stimulation according to]
of claim 2, wherein the means of stabilizing [comprise] comprises a pliant
polymer block having a series of slots, the slots dimensioned to frictionally
engage with the [each lead body] first and second lead bodies.

4. The [A] system [for providing medical electrical stimulation according to]
of claim 2, wherein the first electrode portion comprises a root portion, a semi-
cylindrical cuff [extending] extends from the root portion in [the] a first radial
direction, a long flap [extending] extends from the root portion in a second
radial direction, the long flap extending over at least a portion of the semi-
cylindrical cuff, and a short flap [extending] extends from the root portion in [a]
the first radial direction, the short flap extending over at least a portion of the
long flap.

5. The [A] system [for providing medical electrical stimulation according to]
of claim 4, [further comprising] wherein the first radial direction ranges between
90 and 270 degrees.

6. The [A] system [for providing medical electrical stimulation according to]
of claim 5, [further comprising] wherein the second radial direction ranges
between 180 and 360 degrees.

II. REMARKS

Support for the amendments made to the claims herein may be found throughout the application as filed.

Referring to the Office Action mailed June 5, 2000, and in accordance with the Examiner's requirements and rejections, claim 1 is cancelled herein and claims 2-6 are amended to incorporate all the limitations recited in cancelled claim 1. Moreover, all section 112 deficiencies pointed out by the Examiner respecting claims 2-6 are corrected by way of amendment herein. Accordingly, claims 2-should now be in condition for allowance.

III. Summary

Claims 2-6 drawn to a stimulation system are now pending in the present application, and are believed to be in condition for allowance. Examination of the application is requested. The Examiner is respectfully requested to contact the undersigned by voicemail at (763) 514-3652 or the below e-mail address with any questions or comments he may have.

Respectfully submitted,
JEAN WOLOSZKO et al.

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants: Jean Woloszko et al.

Examiner: L. Cohen

Serial No.: Unassigned

Group Art Unit: 3739

Filing Date: Herewith

Docket No.: P-7326.03 DIV2

Title: MEDICAL ELECTRICAL LEAD

PRELIMINARY AMENDMENT

Commissioner of Patents and Trademarks
U.S. Patent and Trademark Office
Washington, D.C. 20231

Via Courier

Dear Sir:

This preliminary amendment is submitted in conjunction with a new divisional patent application submitted on even date herewith.

I. Amendment

Please amend the above-referenced application as follows:

In the Specification:

On page 2, between lines 2 and 3, after the title and before the words "Field of the Invention," please insert the sentence --This divisional patent application corresponds to co-pending parent U. S. Patent Appln. Serial No. 08/820,473 filed March 17, 1997 for "Medical Electrical Lead" to Woloszko et al.--

In the Claims:

Please cancel claims 7-21. Applicants now elect and reinstate claims 1-6, withdrawn on February 21, 2000 in a Response to Restriction Requirement filed in divisional U.S. Patent Application Serial No. 09/273,457 as being directed to a non-elected invention.

II. REMARKS

This divisional patent application corresponds to and claims the benefit of the filing date of parent U.S. Patent Appln. Ser. No. 08/820,473 filed March 17, 1997 for "Medical Electrical" to Woloszko et al.

Claims 1-6 drawn to a stimulation system is now pending in this divisional application, and is believed to be in condition for allowance. Examination of the application is requested.

The Examiner is respectfully requested to contact the undersigned by voicemail at (612) 514-3652 with any questions or comments he may have.

Respectfully submitted,

By:
